Day by day, year after year. Through every challenge, no matter the circumstances. As new assignments appear and new demands sets, you should always be able to feel comfortable. Be able to count on your work wear.

At TAILOR we know the importance of durable work wear. We design with the aim to make you feel and look good. It’s in every carefully selected detail, presented in the hand-picked fabrics.

We understand the main purpose of solid work wear but we also believe in a proper impression. Discover our collections: Repeat Corporate Wear, Twill Business Wear, Super 100’s Premium and Smart Casual – with design and function a suitable choice for the entire business.
Repeat Corporate Wear is more than just an eco-friendly approach. Above all, it is a durable collection for demanding wearers who want to work freely and unobstructed, regardless of the task. With these comfortable garments you simply reach further every day of the week.
Plastic is the commonest waste across all seven seas of the world, which are being turned into rubbish dumps with devastating long-term effects on maritime life. Each year incredible amounts of plastic end up in our oceans and these are being filled at an ever-increasing rate at the same time as production of plastics grows.

Traditional plastics do not degrade, and the process for biodegradable plastics takes a very long time. Only five percent are washed up on the beaches, whilst the rest remains in the sea. If the trend is not broken, there will be more plastic than fish in the sea by 2050.

Polyester is an oil-based product from finite fossil resources which deplete Planet Earth’s reserves. When recycling plastic waste Recirculated Polyester is extracted to form new polyester fibres for materials for use in the textile and clothing industry, in a resource-friendly manner.

TAILOR’s REPEAT series with Recirculated Polyester NEWLIFE™ is a step towards reducing the environmental effect with sustainable changes, through greater responsibility in production, and by manufacturing clothes in a more environmentally and resource-friendly way. The REPEAT suit’s material is a blend of NEWLIFE Polyester from reclaimed PET bottles together with Virgin wool / Merino wool (mulesing free) and Spandex stretch material for greater comfort. The REPEAT garments are designed and made to last longer and thereby extend their lifecycle with a lower environmental effect as a consequence.
1. Jacob Tailored Fit Corporate Sustainable

SUSTAINABLE IN THE LONG RUN

Here at TAILOR we firmly believe in long-term relations with both customers and our products alike. We believe in producing classic designs and high quality functionality in an environmentally-friendly way, that lasts and lasts. We believe in long-term wear, using a minimum of resources in order to save the Earth’s precious assets. Simply put, we believe in a more responsible production and consumption to contribute to as low an environmental impact as possible.

SOCIAL RESPONSIBILITY

We work closely with the manufacturers applying regular quality controls and inspections, which lead to a good collaborative effort as well as governance over the chain of production. We work in compliance with current regulations, codes of conduct and directives which place demands on employee salary conditions, regulated working hours, right of association, discrimination, etcetera and that no child labour is allowed. We accept the following initiatives: ISCC, SA 8000, Sedex, WRAP and ETI.

ENVIRONMENTAL CONSIDERATION

Our products are manufactured in compliance with the current environmental standards of REACH. As far as possible we work with Öko-tex certified suppliers. The Öko-Tex Standard 100 is a global harmonized certification system for textile materials and goods. The certification ensures that no harmful or hazardous chemicals or other substances that are governed by law are used in the manufacturing process, or remain in the finished product. Gate David Tekst/TAILOR are members of the SWEREA IVF Chemical Group, in which we receive up-to-date information concerning legislation and regulations.

ENVIRONMENTAL POLICY

TAILOR shall contribute to a sustainable and long-term environmental development by following laws and regulations, influencing suppliers, collaboration partners and by selecting environmentally responsible alternatives. Constant improvements shall be achieved using the expertise of, and commitment to, our personnel.

For further information concerning the Code of Conduct & CSR go to gotedavid.se

GENERAL CONDITIONS

EXCHANGES, RETURNS & CLAIMS:

- Exchanges and returns shall have been received by TAILOR within 20 days and be sent using registered/traceable parcel delivery.
- For returns caused by TAILOR such as incorrect garment, incorrect notation and/or incorrect packing, TAILOR will of course refund the cost of return postage - contact Customer Services for return documentation.
- A Return Note or Delivery Note showing the article number and order number shall be ALWAYS accompany returned goods. Contact TAILOR’s Customer Services if you are unsure. The Return Note form can be found on the website.
- If no Return Note or Delivery Note with the correct order number accompanies the returned goods, TAILOR reserves the right to refuse the return.
- The retailer is responsible for checking the received order prior to returning it.

Any products returned must always be returned in their original packaging (bag).

- The retailer is responsible for the garments being returned in good and salable condition.
- If the product is considered to be unsalable or for any other reason cannot be resold, it will not be credited and will be sent back to the customer at the customer’s expense.
- Transferred garments will not be credited. Such as, for example, lengthened, shortened or marked garments.
- Returns, for which TAILOR is NOT at fault, will be subjected to a handling fee reduction of SEK 195 before crediting.
- For returns due to sizes, colour, etc., always order new articles via Customer Services and return available items to:

TAILOR KONFEBTON AB, Textilvägen 2, SE-515 32 Viskafors, Sweden.

HOW TO FIND MY SIZE?

Start with your Body Measurements when selecting your size. The product will carry a Garment Measurement which equals the Body Measurement + range of movements of the garment.

1. The jacket/skirt length is based on the chest measurement. Measure the circumference of the arm in the widest part between the shoulder and looking forward. Make sure to ensure the tape measure is horizontal and does not slip down on the back. The jacket/skirt shall hang slightly over the shoulder and be slimmer for a suitable shirt cuff on the arm. The jacket/skirt length nowadays is to cover ½ of the posterior. Classic length is to cover the entire posterior. Select the jacket/skirt length according to the table above. NORMAL/LONG SHORT/PARTY + WIDE.

2. The trouser size is based on the waist measurement. The essential thing is to measure where the trouser is intended to sit and combine with the living garment measurements. The length must ensure a comfortable fit of the tights and the maintenance of personal preference. The rule is that it should not be longer than the foot without shoes.

The most common length is a sock length break, where the trousers just touches the shoes.

STYLE

- As seen fit
- C-regular fit
- D-wide fit
- tailored fit
